

Kundan Kumar Chaudhary

LinkedIn: [linkedin.com/in/kundanchaudhary05/](https://www.linkedin.com/in/kundanchaudhary05/)

GitHub: github.com/kundanchaudhary07

Portfolio: kundanchy-portfolio.vercel.app

Email: kundanchy05@gmail.com

Mobile: +91-8092728288

SKILLS

Languages: C++, Java, Python, JavaScript, C

Frontend: React.js, React Native, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, PostgreSQL

Tools: Git, GitHub, Figma, Render, Vercel, Supabase

Cloud & Devops: AWS, Azure, Docker, Kubernetes, Terraform, Ansible, Jenkins, CI/CD, Grafana

Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

PROJECTS

InfraFlow — Cloud-Native AI Deployment & Operations Platform | [GitHub](#)

July 26

- Developed a cloud-native AI deployment platform to automate application delivery, containerized workloads, and scalable infrastructure management across cloud environments
- Automated CI/CD pipelines and infrastructure provisioning using Jenkins and Terraform, standardizing application builds, deployments, and environment configuration
- Implemented Kubernetes-based orchestration and autoscaling with Prometheus and Grafana for application monitoring, resource tracking, and infrastructure health
- Tech Stack:** AWS, Docker, Kubernetes, Jenkins, Terraform, Ansible, Prometheus, Grafana, Linux, Git/GitHub

Exam Logix — Intelligent Examination & Proctoring Platform | [GitHub](#)

Nov 25

- Engineered a secure online examination platform with AI-assisted proctoring, background-noise detection, and real-time monitoring to maintain integrity during remote assessments.
- Integrated JWT-based authentication, automated evaluation, result management, and role-based examination workflows for students and administrators
- Embedded AI/LLM-based capabilities for intelligent monitoring and assistance, while using browser-based WebRTC and Web Audio APIs for remote proctoring
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, WebRTC, Web Audio API, JWT, REST API, Git/GitHub

TRAINING

DSA using C++ — Lovely Professional University

Jun 2026 – Jul 2026

- Designed IntelliSearch, a search engine using Trie, Hash Map, and Priority Queue for efficient document retrieval
- Applied advanced STL and DSA concepts to efficiently optimize document indexing and query processing
- Programmed advanced data structures and algorithms to improve search efficiency and query performance

CERTIFICATIONS

- Completed "Data Structures & Algorithms (C++) – Apna College | [Certificate](#)
- Ongoing MOOC Certification in Large Language Models – NPTEL (Proctored)
- Completed Object-Oriented Programming Certification – NeoColab | [Certificate](#)

Jan 26

Nov 26

Jan 26

ACHIEVEMENTS

- Solved 350+ problems on LeetCode, strengthening Data Structures & Algorithms and problem-solving skills
- Solved 200+ problems on HackerRank, covering algorithms, data structures, and programming concepts
- Solved 150+ problems on CodeChef, improving competitive programming and algorithmic problem-solving skills

EDUCATION

Lovely Professional University

Bachelor of Technology in Computer Science and Engineering **CGPA: 8.91**

Punjab, India

Aug 2024 – Present

M. L. S. M. College, Darbhanga

Darbhangha, Bihar

Intermediate (Class XII) **Percentage: 86.2**

Apr 2021 – Mar 2023

Upgraded Middle School, Ramauli

Darbhangha, Bihar

Matriculation (Class X) **Percentage: 81.2**

Apr 2020 – Mar 2021
